

OUTDOOR LIVING 2018

SKAGERAK
DENMARK

We are happy to present our outdoor collection 2017/2018 which is a unique mix of classical and brand new designs. Some of the items have been with us from the start since 1976 while others are just now seeing the light of the day.

To put together this collection, we have teamed up with some of the most passionate and creative designers from Denmark and around the world – hand-picked based on their skills and mindset. Together, we strive to make long-lasting and functional design. To spice up our everyday lives and facilitating happy memories for generations. To make houses into homes.

In doing so, the notion of quality has always been a cornerstone in our DNA. As we see it, quality is basically about three things – designing, producing and maintaining strong relationships with people and the planet. Sustainability and quality are therefore intrinsically connected, and we seek to act responsibly in all steps of our business.

To this year's outdoor collection, we have brought new colour and material combinations into play. Teak and powder coated aluminum are both highly durable entities and together they form an interesting mix of the industrial and the natural – bringing together the best from two worlds. This combination is yet another way to create what we believe is the most important element to the outdoor space – heard-wearing and eye-pleasing comfort – and we are happy to share it with you.

Yours sincerely
Jesper and Vibeke Panduro

Edge Pot designed by Stilleben

Overlap Table and Benches designed
by TAF Architects

A photograph of an outdoor dining area. In the foreground, a dark green metal table with a slatted top and a bench-style base is set on a light-colored gravel or sand surface. Three matching green metal chairs with mesh backs are arranged around the table. On the table, there is a large, round, terracotta-colored tray holding several small terracotta cups, a small potted plant, and some food. In the background, there is a red brick wall with a window, some green foliage, and a concrete step leading up to a wooden door. The scene is lit with soft, natural light.

Reform Tables designed by Louise Hederström
Mira Chairs and Armchairs designed by Mia Lagerman
Plank Bench designed by Aurélien Barbry
Edge Tableware designed by Stilleben

A minimalist outdoor scene featuring a white mesh chair and a low table against a dark wood wall. The chair is a modern design with a white frame and a mesh backrest and seat. The table is a simple, low-profile design with a white top and a metal frame. On the table, there is a white mug and a small, round, textured object. A tall, white, cylindrical vase with a green plant branch is also on the table. Above the table, a dark wooden shelf holds a small, round, textured object. The floor is made of light-colored wooden planks, and there are some fallen pink petals scattered on it. The background is a dark, vertical-slatted wooden wall.
